NOTES ON CONTRIBUTORS

Luiz A. Amaral (http://people.umass.edu/amaral/) is an assistant professor of linguistics at the Department of Languages, Literatures and Cultures at the University of Massachusetts Amherst. His research focuses on theoretical models of second language acquisition, computer assisted language learning, and natural language processing of learner language. He is also interested in user models, and activity design in CALL. He is one of the developers of TAGARELA, an intelligent language tutoring system used in the instruction of Portuguese as a foreign language.

Laura Babcock is a PhD student of Cognitive Neuroscience at the Scuola Internazionale Superiore di Studi Avanzati (SISSA) in Trieste, Italy. She received her Master's of Science in Linguistics from Georgetown University in 2008. Her PhD works focuses on the cognitive benefits of bilingualism, specifically looking at the effects on different processes of executive functioning. She is also interested in the brain basis of second language acquisition, multiple aspects of L3 acquisition, language attrition, and simultaneous translation. She can be reached at lbabcock@sissa.it.

Melissa (Missy) Baralt is an assistant professor of Spanish Applied Linguistics in the Department of Foreign Languages at Florida International University. She got her Ph.D. in the Department of Spanish and Portuguese at Georgetown University (2010). She has one foot in the U.S. and one in South America, as her husband is from Venezuela and one of her aunts lives in Brazil. Melissa's research interests include second language acquisition (SLA), technology in SLA, and the provision (and noticing) of feedback in computer-mediated communication (CMC) versus face-to-face (FTF) modalities.

Vládia Borges: Associate Professor at the Federal University of Ceara, Brazil and director of the UAB/UFC Online English Teaching Certification Program (*Licenciatura em Língua Inglesa à Distância – UAB/UFC*). Obtained Ph.D. in Education with specialization in Language and Culture from Rhode Island College/University of Rhode Island (USA); title of doctoral dissertation: "The Incorporation of Communicative Language Teaching into the Elaboration of Interactive Software for ESL/EFL Learning", 2006. Co-directed a CNPq granted research project on the uses of virtual reality for language learning (1999 – 2001). Has conducted research on CALL, language acquisition, and text processing. Has developed language learning software using virtual reality, multimedia resources, and the Internet. Research interests include: CALL, distance learning, text processing, and language acquisition. vladiaborges2001@yahoo.com.

Vanessa Borges-Almeida is a PhD student at UNESP – São José do Rio Preto. She holds a Master's in Educational Psychology from PUCCAMP and a degree in Letters (Translation) from Universidade Presbiteriana Mackenzie. She presently works for Faculdades Claretianas – Rio Claro. Her research interests include proficiency testing, teacher education and beliefs about teaching and learning languages.

Augusto Buchweitz is professor at the Federal University of Rio Grande do Sul (UFGRS) and was a Post-Doctoral Fellow at the Center for Cognitive Brain Imaging at Carnegie Mellon University. He earned his Ph.D. from the Santa Catarina Federal University in collaboration with the Center for Cognitive Brain Imaging at Carnegie Mellon University. He is currently interested in fMRI studies of text comprehension and bilingual representations of meaning in the brain.

Erica Chan got her MA from the Chinese University, Hong Kong is interested in testing and second language acquisition. In her MA study she investigated the effects of the medium of instruction on second language written performance in an EFL context. She can be contacted at ericacys@gmail.com.

Douglas Altamiro Consolo holds a BA in Linguistics and an MA in Applied Linguistics from the State University of Campinas (UNICAMP), Brazil, and a PhD in TEFL from the University of Reading, England. He has done post-doctoral work on Language Assessment at UNICAMP and at the University of Melbourne, Australia. He is Associate Professor at the State University of Sao Paulo (UNESP), in Brazil, where he teaches English and Applied Linguistics. He is the coordinator for a postgraduate course on Advanced Studies in the English Language. His research work and publications focus on language assessment, oral skills, foreign language education, face-to-face and electronic interaction, and teacher education. He is also the coordinator for the research group *"Ensino e aprendizagem de língua estrangeira: crenças, construtos e competências"* (CNPq/UNESP), and one of the senior researchers in the project "Teletandem Brazil: foreign languages for all" (FAPESP/UNESP). dconsolo@terra.com.br and dconsolo@ibilce.unesp.br.

Gwendolyn Gong is a professor in the Department of English at The Chinese University of Hong Kong (CUHK) and co-editor of the Asian Journal of English Language Teaching (AJELT). She was formerly the Acting Director of the English Language Teaching Unit at CUHK, Director of Freshman English Studies at Texas A&M University in the US, and visiting lecturer at the Institut Teknologi MARA in Malaysia; she also has been a Technical Communication Delegate for People to People International to Russia and the Czech Republic. Her teaching, research, and publication focus on rhetoric and writing, professional editing, literacy, sociolinguistics, gender, and discourse analysis.

Elizabeth Krawczyk is a fourth year PhD student at Georgetown University. Her research interests lie mostly in formal semantics and pragmatics, particularly at the interface. Her dissertation project focuses on evidentiality (the linguistic marking of evidence source) and the intersection of evidence, speaker certainty, context and common ground, and assertion. She is also interested in computational modeling of dialog and discourse, as well as the brain basis of language. Her email address is k.lissa@gmail.com.

Mailce Borges Mota is associate professor of English at the Federal University of Santa Catarina (UFSC) and a fellow researcher from the Brazilian funding agency CNPq. Her research focuses on the relationship between second language acquisition/processing and cognitive systems and mechanisms such as memory (declarative memory, procedural memory, working memory), attention, and implicit and explicit knowledge.

Jeffrey Scialabba is a Writer and Research Coordinator at the Ayn Rand Institute. He received his Masters of Science in Linguistics from Georgetown University, where he studied the brain basis of language

and worked as a Research Assistant in the Brain and Language Lab. His email address is jscialabba@aynrand.org.

Peter Skehan, *PhD* is currently a full-time professor in Department of English, The Chinese University of Hong Kong, HKSAR, China. Prof. Skehan had previously worked as a professor at Thames Valley University and King's College, University of London. His main research interests include individual differences in second language learning, task-based language teaching and learning, and language testing. Prof. Skehan has published widely in the field of applied linguistics and his papers have appeared in such journals as *Language Learning, SSLA, Applied Linguistics* and *Language Teaching* etc. He has also published two monographs, including "*Individual differences in second language learning*" (1989, with Arnold) and "*A cognitive approach to language learning*" (1998, with Oxford University Press, which won the Kenneth W. Mildenberger Prize) and edited one book (with M. Bygate & M. Swain) "*Researching Pedagogic Tasks: Second Language Learning, Teaching and Testing* (2002, with Longman). pskehan@arts.cuhk.edu.hk.

Ricardo Augusto de Souza is Adjunct Professor of English in the Faculty of Letters at the Federal University of Minas Gerais. His main research interests are bilingual sentence processing, interlanguage syntax, and the role of modern information and communication technologies in the promotion of multilingual experiences. He can be reached at ricsouza.ufmg@gmail.com.

Janaina Weissheimer possui graduação em Letras Português e Inglês pela Universidade do Vale do Rio dos Sinos (1999), mestrado em Lingüística Aplicada pela Universidade do Vale do Rio dos Sinos (2002) e doutorado em Letras (Inglês e Literatura Correspondente) pela Universidade Federal de Santa Catarina (2007). Atualmente é professora da Universidade Federal do Rio Grande do Norte

(UFRN) em Natal. Tem experiência na área de Letras, com ênfase em Aquisição de Linguagem, atuando principalmente nos seguintes temas: aquisição, ensino de inglês, produção oral e memória de trabalho. janaina.weissheimer@gmail.com.

Edward Zhisheng Wen, is currently a full-time lecturer in Department of English Language and Literature, Hong Kong Shue Yan University, HKSAR, China. Meanwhile, he is completing his PhD dissertation on "Effects of working memory capacity on L2 speech planning and performance" at the Chinese University of Hong Kong. Previously, Mr. Wen had worked as a lecturer of College English in South China Normal University (Guangzhou, China) for several years. His main research interests include: Second Language Acquisition, Psycholinguistics, Task-based Language Teaching and Learning. He has published some research papers on working memory and language aptitude in academic journals in China. wenzhisheng@ hotmail.com.

Donesca Xhafaj holds a Master's degree in Letras/Inglês e Literatura correspondente from Universidade Federal de Santa Catarina (2006) in the area of second language acquisition. She has also been a teacher of English for 10 years and is currently pursuing her PhD at the same graduate program. At the moment, her main research interests are literacy acquisition and metalinguistic awareness, but she is also interested in L2 speech production, task-based approach, and L2 learners' individual differences. Her email is donescax@gmail.com

Márcia Zimmer is a full-time professor at the Graduate Program of Applied Linguistics at UCPel (Catholic University of Pelotas), where she has taught and advised graduate students on second language acquisition and cognition-related issues, with a special emphasis on dynamic systems and L2 speech production. Marcia. zimmer@gmail.com.
